SITUATION SUMMARY

Northern California Fires (see *Fire Activity Section* for additional information): (Cont.)

Modoc July Complex Modoc County (Update)

Fire Information:

2 miles south of Dalton Reservoir

Per Cal OES Fire Duty Officer and ICS 209 dated 07/05/14 at 0528 hours:

- 1,650 acres, 50% contained

Fires in the complex: Dalton, Dobie, Northern, Janes, 16 other fires for 74 acres.

Coleman, Vegetation Fire, Modoc County (Update)

Fire Information:

25 miles east of Fort Bidwell, California

Per Cal OES Fire Duty Officer and ICS 209 dated 07/05/14 at 0548 hours:

- 15,000 acres, 60% contained

Gulch, Vegetation Fire, Modoc County (Update)

Fire Information:

15 Miles North of Canby along Hwy 139

Per Cal OES Fire Duty Officer and ICS 209 dated 07/05/14 at 0522 hours:

- SRA/FRA
- Unified Command with CAL FIRE LMU and Modoc National Forest
- Start Date / Time: 07/04/14 at 1546 hours
- 5 Fires, 1600 acres, Grass and Brush, 40% contained
- 800 acres FRA, 800 acres SRA
- CAL FIRE Air and Ground Resources committed

SITUATION SUMMARY

Northern California Fires (see *Fire Activity Section* for additional information): **(Cont.)**

Liberty Fire, Solano County **(Final)**

Fire Information:

Liberty Island Road at Swan Road, Dixon

- LRA
- Start Date / Time: 07/04/14 at 1741 hours
- 176 acres and 100% contained

SITUATION SUMMARY

Southern California Fires (see *Fire Activity Section* for additional information):

Ranch, Vegetation Fire, Kern County (**Update**)

Fire Information:

10 miles west Lake Isabella, Kern County

Per Cal OES Fire Duty Officer and ICS 209 dated 07/05/14 at 0600 hours:

- FRA
- 150 acres, 0% contained
- Cooper Type 2 IMT assigned
- Local Government overhead assigned
- Fire is holding in place with the help of daily air support.

Banner Incident, Vegetation Fire, San Diego County (**Final**)

Fire Information:

Per Cal OES Fire Duty Officer and ICS 209 dated 07/05/14 at 0601 hours:

- 217 acres brush, 90% contained
- 2 structures and 1 outbuilding destroyed
- Fire Management Assistance Grant (FMAG) submitted to Cal OES. The FMAG does not meet criteria and has been placed on hold.
- Local Government Resources released

SITUATION SUMMARY

Motorcycle Rally, Hollister, San Benito County (New)

- The City of Hollister is hosting a large motorcycle rally which is expected to have approximately 100,000 to 140,000 attendees at any given time. The rally is running until Sunday, 7/6/14. For the duration of the rally, several major Hollister streets will be closed.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Camp San Luis Obispo Last Power Outage Reminder - Monday, July 7, 2014

- The outage will start at 0730 and last most of the duty day. Please ensure sensitive electronics are unplugged prior to power being restored. This will impact CSTI from the aspect that their phones and Guest wireless/ Internet will be down. The servers should be up, but they will lose some functionality.

Significant Weather

- Red Flag Warning in effect from 7/5/2014 at 1400 hours to 2200 hours for Modoc and Siskiyou Counties.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A strong ridge of high pressure will begin to build over the region today, allowing inland daytime temperatures to rise above normal. This heat wave will last through the middle of next week. Monsoonal moisture approaching from the south will bring a slight chance of thunderstorms to parts of the interior Monday through Wednesday.

San Francisco Weather:

A warming trend is anticipated for the weekend as a high pressure ridge over the desert southwest builds westward over California. The most significant warming will occur inland. Night and morning low clouds and fog this weekend will be confined to the immediate coast plus adjacent valleys.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Little change in daytime temperatures today with warming temperatures Sunday and Monday. Monday will be the warmest day with highs 10 to 15 degrees above normal. A gradual cooling trend is forecast for the rest of the week. There is a slight chance of thunderstorms over the mountains Monday through Thursday with the greatest chances Tuesday afternoon and evening.

Hanford Weather:

High pressure anchored over the four corners region will keep above normal temperatures across the central California interior through much of next week. An increase in monsoon moisture will bring some mid-level cloud cover with isolated thunderstorms developing each afternoon over the mountains and desert.

WEATHER SYNOPSIS BY REGION: (Cont.)

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A large high pressure system will bring above normal temperatures to the area along with partly cloudy skies and a slight chance of a thunderstorm over the mountains and antelope valley. The marine layer will hug the coast from Ventura County northward.

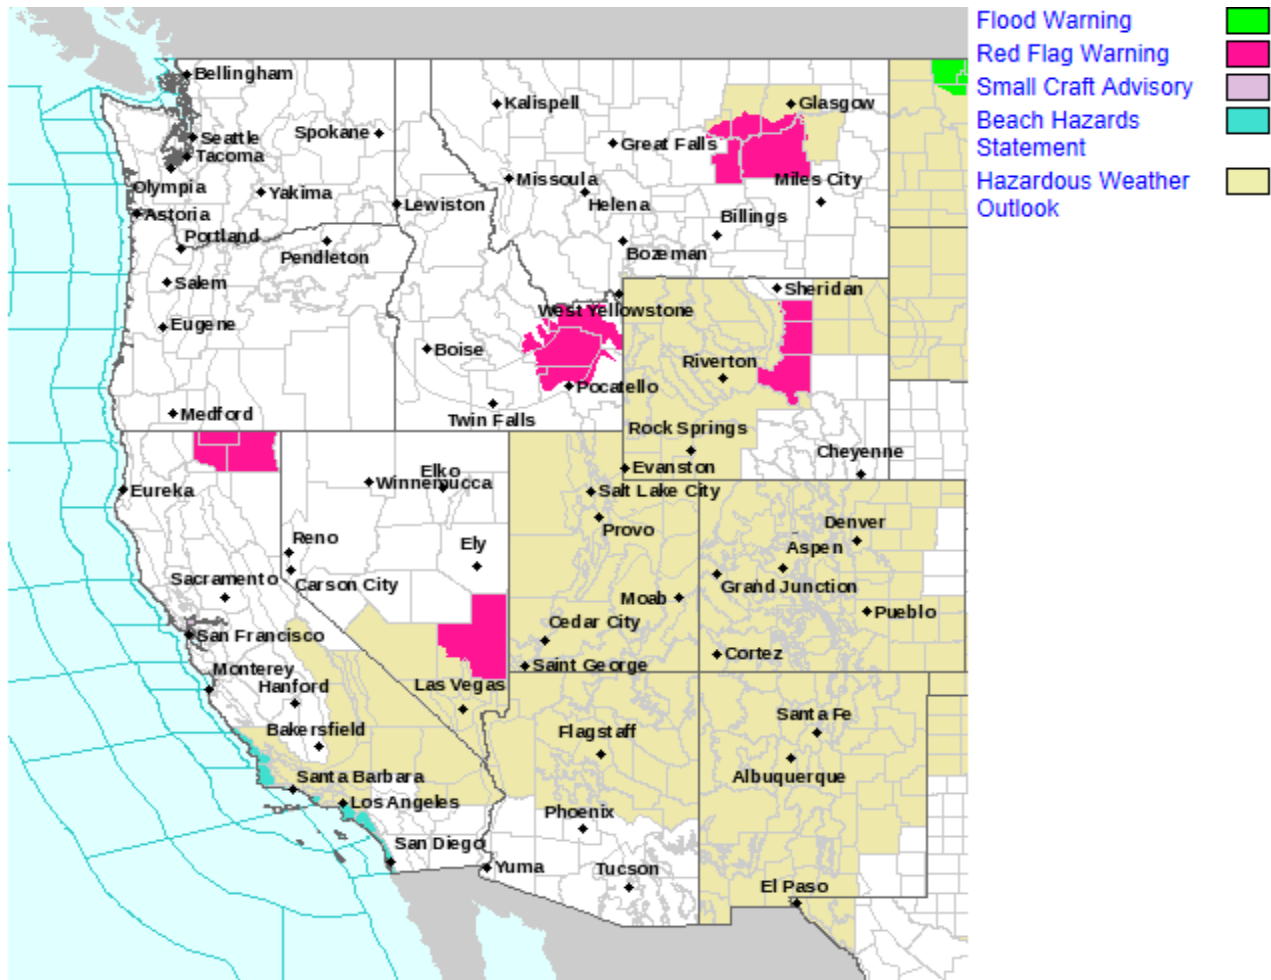

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure to the northeast will continue to direct some monsoonal moisture into far southern California well into next week, enough for a chance of thunderstorms, mainly for the mountains and deserts, and mainly during the afternoon and early evening. A shallow marine layer will continue to keep coastal areas cooler with a greater return of night and morning coastal low clouds and fog possible next week.

Southeast California Weather:

Monsoon moisture will remain in place across the region through the weekend, resulting in slightly cooler temperatures, higher humidities, and daily chances of showers and thunderstorms. The threat of scattered showers and thunderstorms will continue through next week with temperatures nearly normal for the beginning of July.

- No Local Government commitment

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday – Friday, 0800-1700 hours.

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

On April 25, 2014 Governor Brown released an Executive Order on Friday enabling several urgent actions to be taken as the drought persists into the state's traditional dry season.

**** As this rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly over the coming months. This winter's below average rain and snowfall worsens conditions in this third straight dry year.****

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

Situational Summary

The National Weather Service provided the following synopsis for the relationship of Blowing Dust Advisories and the drought conditions in southeast California: Dust storms are common due to increased thunderstorm activity and the winds produced with these storms, during monsoonal flows. The severity of the dust storms could be locally exacerbated by drought conditions. In any event, the public should monitor NWS for any advisories and warnings issued by NWS.

On July 1 2014, administration of the CDPH Drinking Water Program (DWP) transferred to the California State Water Resources Control Board (SWRCB) Division of Drinking Water. CDPH and the SWRCB entered a Memorandum of Understanding outlining a three-month transition period during which drought response activities and any other emergencies will be coordinated jointly between the two organizations.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-LAW-3978**, Update: On 7/4/14 at 1435 hours, San Bernardino County Sheriff's Department (SBSD) cancelled the K-9 portion of the request. Cal OES Law Branch K-9 Coordinator advised. The Mine Team response from LASD is still a go for Saturday, 7/5/14. Situation: On 7/3/2014 at 1523 hours, The SBSD is requesting mutual aid resources to assist in the search for human remains as part of an active, ongoing homicide investigation in the Twenty Nine Palms area. The request is for a mine team and HRD K-9's to search undisclosed area's on Saturday and Sunday, July 5 & 6. The Law Branch Region I Coordinator contacted the Los Angeles County Sheriff's Department for their Mine Team and Cal OES Law Branch is coordinating the HRD K-9 response.
- **2014-LAW-3981**, On 7/3/2014 at 1726 hours, the Glenn County Sheriff's Office requested SAR resources to assist in the search for human remains in the Sacramento River. On 6/21/14, a kayaker located human remains while on the River and notified authorities. Glenn County SO Detectives have been searching the area but with negative results and are requesting a mutual aid HRD K-9 to assist in a search for additional remains on Monday, 7/07/14. Butte County SO has agreed to assist with the mission and are coordinating directly with Glenn County.

CAL OES MISSIONS

Closed Cal OES Missions

- **2014-LAW-3986**, On 7/4/14 at 2003 hours, The International Emergency Response Coordination Center (IERCC) reported a SPOT/Delorme device activation in Lake County at coordinates: 39 9 28N, 122 34 57W, which plots on a dirt road off Bartlett Springs Road. Using the two way text messaging capability, the registered owner of the device advised IERCC that he was at the scene of an off road motorcycle accident with a male subject who suffered a major back injury. The Cal OES Law Duty Officer obtained additional information and briefed the Lake County Sheriffs Office (SO). At 2028 hours the Lake SO advised a REACH air medical helicopter was in route with a 9 minute ETA. At 2157 hours, Lake SO advised the patient has been recovered and is in route to the hospital via the REACH helicopter. IERCC notified. **Mission Closed.**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
